

Minneapolis Business Litigators

Zelle LLP is expanding its business litigation and advisory practices in Minneapolis. We are interested in individual attorneys, groups, and small firms that have practices compatible with ours and an interest in strategic growth with a national platform.

Zelle is a nimble mid-sized firm with 75 lawyers in eight offices throughout the United States and an office in London. In Minneapolis, our lawyers are focused on counseling businesses and representing companies in litigation. Our goal is to increase our visibility and engagement with the Twin Cities business community through joining forces with attorneys who are enthusiastic about business development and community involvement.

We believe we have a lot to offer our future colleagues. We have a collegial culture, value diversity, and believe in contributing to our community. If you or your group have sufficient work and would benefit from a national presence, a sophisticated infrastructure, and a unique business model, we would love to talk with you.
