

### PRACTICE CONTACTS

- Matthew Gonzalez
- Jonathan R. MacBride
- Jason Reeves
- William G. Zieden-Weber

Zelle advises and represents many of the world's largest insurance companies in complex, high-risk matters across all areas of the Energy sector. Our experience includes coverage disputes and claims issues in the exploration, production, and distribution of energy resources, including mining. Our firm has also developed deep experience in the renewable energy market segment, including wind generation, battery storage losses, solar, biodiesel and hydropower. We advise on projects globally, including North, Central and South America, the United Kingdom and Europe, Africa, and the Middle East governed by U.S., English, and foreign laws. Our attorneys are actively engaged in the industry, supporting, attending, and speaking at key industry events, including PowerCon, the Onshore Energy Conference, and the Lillehammer Energy Claims Conference.
